BES Lab Manual Flow

Dear Students, **BES Lab Manual is to be submitted in Softcopy form** only. It must be uploaded in the Google Classroom Assignment page against the said experiment.

Lab Manual should include the following sessions:

1. Introduction
2. Objectives
3. Simulink Block sets Used
4. Theory
5. Statement of Experiments
6. Procedure
7. Tabulations/Class room Observations and hand Calculations (Scanned copy from hand written note book). These pages are to be embedded into the manual's softcopy.
8. Simulink Circuit diagrams
9. Graphical results (if applicable)
10. Conclusions

NOTE: Sections 7, 8, 9 shall be for each of the simulated circuit (i.e, Assignment problem) for an experiment.
